

SUPPLEMENT
TO THE
MONTHLY AND QUARTERLY RETURNS
OF THE
BIRTHS, DEATHS, AND MARRIAGES
REGISTERED IN
SCOTLAND
DURING THE YEAR
1891;
ALSO THE
VACCINATION RETURNS
RELATIVE TO THE CHILDREN BORN DURING
1890.

PUBLISHED BY AUTHORITY OF THE REGISTRAR-GENERAL.

EDINBURGH: PRINTED BY NEILL AND COMPANY

FOR THE REGISTRAR-GENERAL OF BIRTHS, DEATHS, AND MARRIAGES.

1892.

REPORT.

Herewith is submitted the Report containing the usual details regarding the Births, Deaths, and Marriages registered during the year 1891, in the 1051 Registration Districts throughout Scotland. Appended to the General Report is the Twenty-seventh Report on Vaccination, in which is contained all the available information regarding the administration of the Scottish Vaccination Act, and especially in relation to the vaccination of children born in Scotland during 1890.

TABLE I.—Population estimated to the middle of each year, with the Number of Births, Deaths, and Marriages registered in Scotland during each of the Years 1855 to 1891, and their Proportion to the Population; also the Excess of Births over Deaths, the Number of Illegitimate Births, and their Proportion to the Total Births.

YEAR.	Estimated Population.	BIRTHS.		DEATHS.	MAR-RIAGES.	Excess of Births over Deaths.	Percentage to Population.			Per cent. of Illeg. to Total Births.

The population of Scotland as estimated from the census populations 1881 and 1891 is at the middle of the year 4,033,180, of which 1,946,440 are males, and 2,086,740 females.

During the year 125,965 births were registered, 83,548 deaths, and

27,949 marriages. Hence, for every hundred of the estimated population, there were 3·12 births, 2·07 deaths, and 0·69 marriages. When these figures are compared with those corresponding for the previous year (Tables I. and II.), there is seen to be an increase in the case of each, the death-rate being higher than it has been since 1878.

The excess of births over deaths is 42,417.

BIRTHS.

125,965 births were registered throughout Scotland during 1891, being at the rate of 3·12 per cent., or 312 for every ten thousand of the estimated population; 64,875 of them were males, and 61,090 females.

Information may be obtained (Tables IV. and V.) as to the number and proportion of births in the five groups of Registration districts into which the whole country is divided. In the Principal Town districts 52,437 births are registered, being in the proportion of 3·29 per cent. of the estimated population of the same, 26,739 being males, and 25,698 females; in the Large Town districts the total amounts to 15,892, and in the ratio of 3·38 per cent. to the inhabitants, males 8,217, females 7,675; in the Small Town districts they number 26,846, at the rate of 3·19 per cent. to the inhabitants, males 13,907, females 12,939; in the Mainland-Rural districts the births number 27,943, at the rate of 2·79 per cent. of the population of the same, males 14,472, females 13,471; and in the Insular-Rural districts the total number is 2,847, or at the rate of 2·26 per cent. of the inhabitants, males 1,540, females 1,307. These ratios indicate the highest birth-rate to have occurred in the Large Town districts, followed in order of that in the Principal Town districts, Small Town districts, Mainland-Rural districts, being lowest in the Insular-Rural districts.

9,537 of the total births were illegitimate, equivalent to 7·6 per cent. of all. This rate varies in each district, being 9·8 per cent. in the Mainland-Rural districts, 7·2 per cent. in the Principal Town and Small Town districts, 6·0 per cent. in the Large Town districts, and 5·2 per cent. in the Insular-Rural districts.

Table VI. indicates the relative frequency of illegitimate births in the various geographical divisions into which Scotland is primarily divided, as also in each county. Among the former, the highest rate is in the North-

		Kincardine . . .	12·8	Ayr	6·9	Wigtown . . .	16·0

Wigtown. In ten counties the rate is over 10·0 per cent., the highest being 13·9 per cent. in Elgin; 13·3 per cent. in Aberdeen and Kirkcudbright; 14·4 per cent. in Banff; and 16·0 per cent. in Wigtown.

Of the total 125,965 births during the year, 64,875 were male infants, and 61,090 female infants, so that for every 100 of the latter born there were 106·2 of the former. The highest proportion of male to female births registered was in the Insular-Rural districts, 117·8 to 100, the lowest 104·1 in the Principal Town districts.

Births were registered throughout the county in largest numbers during April when they are at the rate of 375 per diem; June coming next with 371 daily; followed by May, with 355; March, with 353; January, with 352; February, with 347; July, with 344; October, with 341; September, with 335; December with 329; August, with 323; and November, with 317.

DEATHS.

83,548 deaths were registered throughout Scotland during the year, being in the proportion of 2·07 per cent., or 207 in every ten thousand of the population as estimated, a higher ratio than has occurred since 1878.

Table V. shows the highest rate to be in the Principal Town districts, where 229 deaths occurred in every ten thousand of the population of the same; followed by the Large Town districts, with a mortality-rate of 218; the Small Town districts with one of 203; the Insular-Rural districts with one of 178, and the Mainland-Rural districts with one of 173 per ten thousand.

The average number of daily deaths was at the highest during December, with 307; followed by November, with 273; January, with 265; March, with 251; April, with 235; February, with 231; June, with 230; May, with 220; July, with 187; October, with 185; September, with 183; and August, with 178.

MARRIAGES.

27,949 marriages were registered in Scotland during 1891, being at the rate of 69 in every ten thousand of population, the highest rate that has been reported since 1883.

The marriage, as with the other rates, varies in each district, being highest in the Principal Town districts where it is 84 per ten thousand of the inhabitants; 74 in the Large Town districts; 64 in the Small Town districts; 53 in the Mainland-Rural districts, and 35 in the Insular-Rural districts.

The number of marriages registered during each month is 4148 during June, 3760 during January, 3325 during December, 2946 during July, 2201 during November, 2055 during April, 1831 during August, 1783 during September, 1705 during October, 1696 during March, 1496 during February, and 1003 during May.

EIGHT OF THE PRINCIPAL TOWNS OF SCOTLAND.

The remarks which follow deal with the various Registration events which occurred during the year in the following eight Principal Towns of Scotland, viz., Glasgow, Edinburgh, Dundee, Aberdeen, Leith, Paisley, Greenock, and Perth, the information upon which they are founded being furnished by the weekly returns received from the Registrars of the same. It is considered that the facts relating to them apply in a great extent to the country at large.

BIRTHS IN THESE EIGHT TOWNS.

The number of births registered as occurring in the above towns during the year amount to 43,655, which is at the rate of 326 for every ten thousand of their estimated population. The highest rate is in Glasgow, 350 per ten thousand; followed by Leith, with one of 344; Paisley, with one of 335; Dundee, with one of 328; Greenock, with one of 326; Aberdeen, with one of 308; Edinburgh, with one of 282; and Perth, with one of 279.

Of the total 43,655 births, 3422 were illegitimate, giving a percentage of 7·8. The highest rate of these is found in Aberdeen, 10·4 per cent.; followed by Dundee, with one of 9·2 per cent.; Edinburgh, with one of 8·5 per cent.; Glasgow, with one of 7·8 per cent.; Perth, with one of 7·3 per cent.; Leith, with one of 6·1 per cent.; Paisley, with one of 4·6 per cent.; and Greenock, with one of 4·0 per cent. On the same Table VIII. is given the percentage of illegitimate children born during the year to the number of possible mothers, as estimated to be living in those towns, *i.e.*, widows and spinsters between the ages of 15 and 45 years. Aberdeen comes first with 2·29 per cent. of them; followed by Glasgow, with 2·08 per cent.; Leith, with 1·95 per cent.; Dundee, with 1·79 per cent.; Edinburgh, with 1·42 per cent.; Perth, with 1·34 per cent.; Greenock, with 1·24 per cent.; and Paisley, with 1·00 per cent.

22,282 of the 43,655 births in these towns were males, and 21,373 females, so that for every 100 of the latter, there were born 104·2 of the former.

DEATHS IN THESE EIGHT TOWNS.

The number of deaths registered as occurring in these towns during the year, amounts to 31,139, of which 15,305 are males, and 15,834, females; the total mortality-rate being 233 per ten thousand of their estimated population.

The death-rate is highest in Paisley, where 267 in every ten thousand of the inhabitants succumbed during the year; followed by Glasgow, where 253 did likewise; Dundee, coming next with 229; Greenock, with 226; Edinburgh, with 216; Perth, with 207; Leith, with 202; and Aberdeen, with 193; ratios which indicate when compared with those of last year (Table IX.), an increase in the case of Glasgow, Edinburgh, Paisley, and Greenock—the reverse being the case in the remaining four towns, and

again, when compared with the mean for the last ten years, and computed from the populations as determined at the census taken upon 5th April of

Edinburgh . . .	261,933	7,382	2.82	44,098	625	8.5	1.42	5,649	2.16	2337	0.89
Dundee . . .	153,650	5,044	3.28	26,010	466	9.2	1.79	3,515	2.29	1302	0.85
Aberdeen . . .	125,448	3,868	3.08	17,586	402	10.4	2.29	2,422	1.93	1013	0.81
Leith . . .	68,955	2,373	3.44	7,435	145	6.1	1.95	1,394	2.02	508	0.74
Paisley . . .	66,720	2,237	3.35	10,239	102	4.6	1.00	1,781	2.67	517	0.77
Greenock . . .	63,343	2,065	3.26	6,590	82	4.0	1.24	1,430	2.26	511	0.81
Perth . . .	30,153	840	2.79	4,564	61	7.3	1.34	624	2.07	193	0.64

this year, 1891, and that of 1881, it is found that in all cases except Aberdeen, there is a proportionate increase of mortality during the present year, that of Greenock being unchanged.

Table X. affords some information as to the mortality among children under five years of age in these eight towns. In one column is the number of deaths under this age in each town, in another the percentage of deaths under five years to the number as estimated to be alive at that age, and in the last column the percentage of deaths at the same age to the total deaths. Thus in Glasgow 70 in every thousand children presumed to be alive died during the year; in Edinburgh, it was 51; in Dundee, 65; in Aberdeen, 47; in Leith, 49; in Paisley, 77; in Greenock, 59; and in Perth, 38. From the last column it is seen how in every hundred of the total deaths in Glasgow during the year, 38 were of children under five years of age; the number in Edinburgh, being 29; in Dundee, 39; in Aberdeen, 33; in Leith, 37; in Paisley, 39; in Greenock, 39; and in Perth, 23.

Tables XI. and XII. are prepared to show the mortality-rate from various diseases, and classes of disease in each of the eight towns, the former table being calculated with reference to the population of the same, the latter to the total deaths from all causes in each town.

The mortality-rate is in the towns when combined 2·328 per cent. of their estimated population. The percentage of deaths from Zymotic diseases was 0·334 on their estimated population, and forming 14·36 per cent. of the total mortality occurring in them. Such deaths proved fatal to 0·599 per cent. of the inhabitants of Paisley; to 0·371 per cent. of those of Glasgow; to 0·315 per cent. of those of Perth; to 0·302 per cent. of those of Greenock; to 0·296 per cent. of those of Edinburgh; to 0·293 per cent. of those of Dundee; to 0·252 per cent. of those of Leith; and to 0·242 per cent. of those of Aberdeen. The corresponding percentages of deaths from those same diseases to the total deaths, are 22·46 in Paisley; 15·22 in Perth; 14·54 in Glasgow; 13·72 in Edinburgh; 13·35 in Greenock; 12·80 in Dundee; 12·51 in Aberdeen; and 12·48 in Leith.

In Glasgow, in every 100 deaths, 3·36 were due to Hooping-Cough; 3·06 to Measles; 1·97 to Diarrhœa and Dysentery; 1·47 to Scarlet Fever; 1·20 to Fever (0·98 being Typhoid); and 0·90 to Diphtheria.

In Edinburgh, 2·83 in every 100 of the total deaths were ascribed to Hooping-Cough; 1·81 to Diarrhœa and Dysentery; 1·26 to Measles; 0·92 to Diphtheria; 0·85 to Scarlet Fever; and 0·81 to Fever (of which 0·79 were Typhoid).

In Dundee, Hooping-Cough and Diarrhœal affections each cause 3·70 deaths in every 100; followed by Fevers which cause 0·94 (0·68 of those being Typhoid); Diphtheria which causes 0·85; Scarlet Fever 0·23; while Measles is credited with but 0·03.

In Aberdeen, Diarrhœa and Dysentery is the cause of 2·14 deaths per 100; Scarlet Fever of 1·69; Hooping-Cough of 1·61; Diphtheria of 0·66; Fevers of 0·58 (0·54 being Typhoid); and Measles of 0·08.

In Leith, Hooping-Cough comes first as the cause of 4·59 deaths in every 100; Diarrhœa and Dysentery following with 2·01; Fevers with 1·29 (1·07 of those Typhoid, and 0·14 Typhus); Diphtheria with 1·15; Scarlet Fever with 0·36; and Measles with 0·21.

In Paisley, Measles stands pre-eminently forward being the cause of 13·03 deaths in every 100; followed by Hooping-Cough with 2·92; Diarrhœa 2·08; Fever 0·90 (0·84 Typhoid); Scarlet Fever and Diphtheria, each with 0·56.

In Greenock, Hooping-Cough caused 2·66 deaths in every 100; followed by Diarrhœal affections with 2·52; Scarlet Fever with 1·47; Measles and Fever each with 1·19 (0·77 Typhus, and 0·42 Typhoid); and Diphtheria with 1·05.

In Perth, the greatest proportion of such deaths is caused by Diarrhœal affections 3·52 per 100; followed by Diphtheria with 1·92; Hooping-Cough and Fevers each 0·80; Scarlet Fever 0·64; and Measles 0·48.

In these eight towns collectively, 970 deaths were registered under Hooping-Cough, being at the rate of 3·11 per cent. of the total mortality, or 7·3 per ten thousand of the population as estimated. Measles caused 767 deaths, or 2·46 per cent. of the total deaths, and equivalent to 5·7 in every ten thousand of population; 438 of these 767 occurred in Glasgow, and 232 in Paisley. Diarrhœa and Dysentery account for 689 deaths, being at the rate of 2·21 per cent. of the total mortality, and 5·1 per ten thousand of population. Influenza during the year became epidemic, and 638 deaths are referred to it, equivalent to 2·05 per cent. of the total mortality in these towns, or 4·8 in each ten thousand of the estimated population. In Glasgow the mortality from Influenza is at the rate of 0·55 per cent. of the total; in Edinburgh, the ratio is 0·69 per cent.; in Dundee, it is 0·23 per cent.; in Aberdeen, it is 0·28 per cent.; in Leith, it is 0·06 per cent.; in Paisley, it is 0·05 per cent.; and in Greenock and Perth, it is in each 0·09 per cent. Scarlet Fever caused 348 deaths, equal to 1·12 per cent. of the total deaths, or 2·6 per ten thousand of population thus succumbed. Fevers caused 322 deaths, 1·03 per cent. of the whole, or 24 per

TABLE X.—Deaths of Children under Five Years of age in each of Eight of the Principal Towns of Scotland during the Year 1891.

Towns.	Estimated Number of Living Children under 5 years in 1891.	Deaths under 5 years of age.	Percentage of Deaths under 5 years.	Percentage of Deaths under 5 years to the Total Deaths.
Glasgow	77,695	5,443	7·01	38·0
Edinburgh	32,134	1,645	5·12	29·1
Dundee	20,833	1,356	6·51	38·6
Aberdeen	16,830	796	4·73	32·9
Leith	10,521	515	4·89	36·9
Paisley	8,977	692	7·71	38·9
Greenock	9,404	555	5·90	38·8
Perth	3,831	145	3·78	23·2

ten thousand of the inhabitants ; Typhoid Fever caused 263 of the above, and Typhus Fever 52, deaths from the former being most numerous in Glasgow, Edinburgh, and Dundee, from the latter in Glasgow, and Greenock. Diphtheria is the cause of 280 deaths, or 0·90 per cent. of all, constituting a death-rate of 2·1 in every ten thousand of the inhabitants. From Small Pox there are no deaths in those towns, as was also the case last year, while Chicken Pox is the ascribed cause of 4 exits, 3 of those being in Glasgow, and 1 in Edinburgh.

Zymotic diseases together caused 4,471 deaths, which is 364 fewer than during the previous year. Syphilis caused 119 deaths ; Erysipelas, 121 ; and Puerperal Fever, 112.

Diseases of a constitutional nature caused 5190 deaths, or 16·67 per cent. of the total mortality, and equal to 38·8 in every ten thousand of the population. Rheumatism and Rheumatic Fever caused 152 deaths ; Cancer caused 943, at the rate of 3·03 per cent. of the total deaths, and 7·1 in each ten thousand of population, being most marked in Edinburgh, Dundee and Leith. Gout causes 8 deaths. Phthisis accounts for 2,838, at the rate of 9·11 per cent. of the total, and equivalent to 21·2 in every ten thousand of the inhabitants, Paisley, Glasgow, and Dundee, having the highest rate against them. Tubercular Meningitis caused 504 deaths,

TABLE XI.—Percentage of Deaths from different Diseases to the Population in each of the Eight Principal Towns of Scotland during the Year 1891, allowing for the Causes not specified.

Tabes Mesenterica, 345; and other forms of the Tuberculous condition, 259.

From diseases of the nervous system there are 3,456 deaths, 11·10 per cent. of the whole mortality, and 25·8 per ten thousand of the total population. The latter rate is in each town as follows:—31·2 in Paisley; 28·2 in Greenock; 27·8 in Dundee; 27·2 in Perth; 26·3 in Glasgow; 24·1 in Edinburgh; 23·4 in Aberdeen; and 22·8 in Leith; while of the total deaths 13·14 per cent. are of this nature in Perth; 12·52 per cent. in Greenock; 12·15 per cent. in Dundee; 12·10 per cent. in Aberdeen; 11·68 per cent. in Paisley; 11·26 per cent. in Leith; 11·17 in Edinburgh; and 10·33 per cent. in Glasgow.

To diseases of the Circulatory Organs, 2,251 lives succumb, being 7·23 per cent. of the total deaths, or 16·8 in every ten thousand of the population. In Edinburgh 20·6 is the rate per ten thousand as above; in Perth, it is 20·2; in Leith, it is 18·3; in Dundee, it is 16·8; in Paisley, it is 16·6; in Aberdeen, it is 15·8; in Glasgow, it is 15·5; and in Greenock, it is 13·6.

Diseases of the Respiratory Organs account for 7,687 exits, 24·69 per cent. of the total deaths, or 57·5 per ten thousand of estimated population. In Glasgow the mortality rate is, as above to population 69·2; followed by Paisley where it is 57·7; Dundee, 56·1; Greenock, 53·5; Edinburgh, 47·7; Aberdeen, 43·8; Leith, 41·8; and Perth, 40·4. Bronchitis is the cause of 4,003 deaths; and Pneumonia of 2,554, the highest rate from those occurring in Glasgow, Paisley and Dundee; Pleurisy caused 191 deaths; and Croup 147.

TABLE XII.—Percentage of Deaths from different Diseases to the Total Deaths in each of Eight of the Principal Towns of Scotland during the Year 1891, allowing for the Causes of Death not specified.

Diseases of the Organs of Digestion cause 1960 deaths, 6·29 per cent. of the total deaths, and 14·7 in every ten thousand of population. Enteritis is the cause of 463 deaths; Peritonitis, of 256; Dentition, of 221; and Liver affections, of 284.

Diseases of the Urinary Organs cause 709 deaths, 2·28 per cent. of the total, and 5·3 in each ten thousand of the inhabitants; of these deaths, 134 are ascribed to Acute Nephritis; and 279 to Bright's Disease.

Premature Births account for 866 deaths, Congenital Malformations for 143; while 1274 are simply assigned to Old Age.

To Atrophy and Debility 1,008 deaths are credited; to Dropsy, 65; while in 194 cases the death was sudden and the cause not sufficiently exactly ascertained, or was due to ill defined or ill specified causes.

There were 1,084 deaths from Violence during the year in these eight towns, forming 3·48 per cent. of the total deaths recorded in the same, and at the rate of 8·1 in every ten thousand of the population. Of those 1,026 are due to Accident or Negligence; while 58 were due to violence other than accidental, *i.e.*, were Homicidal or Suicidal. For the first time in these Reports the special causes of such deaths are arranged in a more detailed manner than formerly, which allows of a fuller and more precise analysis of deaths of this nature being made by those desirous of so doing.

To Intemperance 98 deaths are ascribed. In these towns 103 persons died during the year at ages of 90 years or over, 31 being men, and 72 women. The oldest was the widow of an Accountant *æt.* 99 years.

MARRIAGES IN EIGHT TOWNS.

11,624 marriages were registered during the year, being in the ratio of 87 for every ten thousand of the estimated inhabitants. In Glasgow, the rate was 92; in Edinburgh, it was 89; in Dundee, it was 85; in Aberdeen, it was 81; in Leith, it was 74; in Paisley, it was 77; in Greenock, it was 81, and in Perth, it was 64 per ten thousand.

WEATHER AND ITS INFLUENCE ON MORTALITY.

The following remarks on the weather of the year are extracted from the Notes of the Astronomer-Royal, which appear in the Registrar-General's Quarterly Reports:—

January was on the whole decidedly cold, with little wind, although a violent gale swept across the country on the 31st.

For the season, the month of February was calm, warm, and extremely dry. The high barometric pressure was very remarkable, for not only was it greater than in any month since 1856, but was also steadier than in any previous February.

March was a cold, windy month, with somewhat wide range of temperature, and a strangely steady barometer, in spite of frequent violent gales.

The month of April was marked by unusually high and steady barometric pressure, low mean temperature, and exceptional dryness.

May was an unusually cold month, with low and somewhat unsteady barometer, while rain and humidity have been normal in quantity.

The weather of June was on the whole somewhat warmer and much drier than usual at this season.

The weather of July was warm and dry, while the barometric pressure was nearly normal, though attended with rather greater fluctuations than are usual in this month. The mean temperature was higher than that of any July since 1887.

TABLE XIII.—Monthly Mortality and Mean Temperature in Scotland during 1891, compared with the Mean of the Ten Years 1881-1890.

MONTHS.	YEAR 1891.			1881-1890.	
	Mean Temperature.	Actual Deaths.	Proportion to 12,000 per annum or 1000 per month.	Monthly Proportion of Deaths.	Mean Temperature.

The weather of August was characterised chiefly by the excessive rainfall, while the temperature was low, and the barometric pressure uniformly low during the first three weeks, but fluctuating considerably in the last eight days. With the exception of the August of 1889, the rainfall has not been exceeded since 1877. Storms of great violence for the season were experienced all over the country in the last week of the month, and with the accompanying rain inflicted great damage on the corn crops.

The weather of September was most unusually varied in character, the only feature common to all the towns being a high temperature, and a series of magnificently fine warm days extending from about the 10th to the 13th.

The month of October 1891 was remarkable for its repeated sudden gales, associated with corresponding violent fluctuations of the relatively low barometric pressure.

November was remarkable for the great range of barometric pressure, accompanied by frequent rains and unusual dampness of air.

The month of December 1891 was extremely wet, both as to the frequency of rains and their large amount. The somewhat low barometric pressure was very variable.

Tables XIII. and XIV. afford some information regarding the Meteorological conditions of the year having special reference to the mortality which occurred during each month of 1891, and also for comparison's sake the mean of ten years 1881-1890. The first four months and the last two of 1891 indicate the lowest mean monthly temperature, which, in the case of February and December, is higher than the mean of the ten years. The greatest proportionate mortality occurred during the present year in the months of January, March, April, November, and December, months

TABLE XV.—Showing the connection between certain Atmospheric Phenomena, especially Temperature, and the Deaths from certain Diseases and Classes of Disease, in Eight of the Principal Towns of Scotland, during each Month of the Year 1891.

which as just stated show a low thermometric reading, the lowest death-rate occurring during August and September.

Table XV. deals with the eight towns and gives with other information the monthly deaths from the more important miasmatic and some other diseases, with the mean monthly meteorological conditions of the same.

As before mentioned there is no death from Small Pox in any of those towns. Deaths from Measles attained their maximum in April, when 162 are registered, gradually falling thereafter, the minimum being observed during August (20), and September (21). Scarlet Fever which had been diminishing during the latter months of 1890, rose in January 1891, during which month the largest number of deaths which occurred during the year were registered (45), the minimum (12) occurred during July, after which a steady rise is to be noted. Hooping-Cough deaths are most numerous during the spring months of the year, gradually falling during the summer and autumnal, to rise again during the early winter months. Diphtheria as a cause of death is at its maximum during the winter and early spring months, much the same thing being the case with Fever. Deaths from Diarrhoeal affections are, as always is the case, most numerous during the autumnal months, August, September, and October.

Phthisis causes its largest number of deaths during the winter months at each end of the year and those of spring, and Croup bulks most largely during the first three and last two months.

The more acute diseases of the Lungs, Bronchitis, and Pneumonia, are especially affected by climatic conditions, and we accordingly find that a large number of deaths of this nature are registered during the months of November, December, January, and March, those months which showed the lowest mean temperature, while they are comparatively infrequent during the warmer months, July, August, and September, much the same holding

good in the cases of diseases affecting the Circulatory and Nervous Systems.

Tables XVII. and XVIII. indicate the comparative mortality at each of four periods of life experienced during each successive month of 1891.

Children under 5 years of age, died in largest numbers during the months of December, March, and November, the fewest during July.

Among Adolescents or those between 5 and 20 years of age, deaths were most frequent during the months of November, June, and March, the minimum during August.

Adults, or those between 20 and 60 years, suffered most severely during December, November, and March, the minimum being during August, and September.

Among the Aged, or those who at death were over 60 years of age,

much the heaviest mortality was during January, December, and November; the lowest during August and September.

The general mortality among the total inhabitants of those eight towns during 1891 was greatest during November, followed in a gradually diminishing rate during December, January, March, June, May, April, February, October, July, September, and August.

REPORT

ON THE

VACCINATION OF CHILDREN

BORN IN SCOTLAND DURING 1890.

The returns for the year 1890 show that of the 121,612 children born in Scotland, 103,635, or 85·217 per cent. were successfully vaccinated. In 2,710 cases vaccination was postponed upon medical authority, being at the

10 Years.	Percentage	86·907	1·637	0·163	0·001	0·251	8·795	2·246	100·000
1890	Percentage	85·217	2·229	0·183	0·002	0·204	9·685	2·480	100·000

rate of 2·229 per cent.; in 222 cases, or 0·183 per cent., the children were certified on account of some constitutional peculiarity, to be insusceptible of vaccination; in 2 cases, or 0·002 per cent., the certificates were to the effect that the children were insusceptible of vaccination in consequence of their having already had Small-pox; and 248 children were insusceptible on account of having been previously successfully vaccinated, although not by persons qualified to give a certificate to that effect, being at the rate of 0·204 per cent. of the whole births. 11,779 or 9·685 per cent. of the children born, died before vaccination; and 3,016, or 2·480 per cent. were removed from the districts in which they had been born, and consequently lost sight of, or were otherwise unaccounted for. The proportion of cases successfully vaccinated is 1·690 per cent. below the average for the last ten years, and the proportion of postponed cases 0·592 per cent. above the average for the same period.

In Table XX. the number of children who died before vaccination is deducted, and the proportion given to the total number living. From this Table it is seen that of the 109,833 children who lived to the age of six months, 103,635 were successfully vaccinated, being at the rate of 94·356 per cent.; vaccination was postponed in 2,710 cases, or 2·468 per cent.; 222 children, or 0·202 per cent. were stated to be insusceptible constitutionally of vaccination; 2 or 0·002 per cent. were insusceptible from having previously had Small-pox; and 248, or 0·226 per cent. were insusceptible in consequence of previous successful vaccination. In 3,016 cases, or in 2·746 per cent., the children were unaccounted for in consequence of

TABLE XX.—Vaccinations in Scotland, 1880-1890, deducting from the Births those who died before they could be Vaccinated, and giving the Proportion of the Vaccinated to the surviving Births of each year.

1871	1,442	1890	—
1872	2,446	1891	—
1873	1,126		

* The Small-pox Deaths are estimated from the ascertained Small-pox Deaths in Eight of the Principal Towns, as compared with the Total Small-pox Deaths in all Scotland during the Twenty Years 1855-1874, but for the years 1890-1891 no reliable estimate can be formed, as no deaths from Small-pox occurred in the Principal Towns.

TABLE XXII.—Small-pox Deaths in Eight of the Principal Towns of Scotland at different Ages in 1891, also during the Ten Years 1875-1884 and 1865-1874, compared with those in the same towns for the Ten Years before the Vaccination Act came into operation, viz., 1855-1864.

AGES.	SMALL-POX DEATHS, 1891.		SMALL-POX DEATHS, 1875-84.		SMALL-POX DEATHS, 1865-1874.		SMALL-POX DEATHS, 1855-1864.	
	Number.	Percentage at each age.	Number.	Percentage at each age.	Number.	Percentage at each age.	Number.	Percentage at each age.

60 and above.	0	00·0	1	0·96	40	1·09	6	0·11
Total	0	00·0	104	100·00	3657	100·00	5415	100·00

having left the districts in which they were born, or from some other cause.

Table XXI. gives the number of deaths from Small-pox in Scotland during each year from 1855. The numbers for 1890 and 1891 would in ordinary course be estimated from the number of deaths from Small-pox which occurred in eight of the principal towns during those years, but no deaths from that disease having occurred in 1890 or 1891 in these towns, an estimate for the whole country cannot be made.

Table XXII. shows the number of deaths from Small-pox for two periods of ten years, viz., from 1865-74, and 1875-84, and also for the ten years before the Vaccination Act came into operation, viz., 1855-64.

[illegible]

33. WIGTOWN.

APPENDIX.

VACCINATIONS, 1890.

EXTRACTS FROM THE REGISTRARS' NOTES RELATIVE TO THE WORKING OF THE VACCINATION ACT.

I. NORTHERN DIVISION.

3. CAITHNESS.

35. CANISBAY.—Vaccination punctually attended to.

36. DUNNET.—Vaccination particularly well attended to.

4. SUTHERLAND.

49. (2) KINLOCHBERVIE.—Epidemics of Measles and Scarlet Fever account for the large number in Column 7.

II. NORTH-WESTERN DIVISION.

5. ROSS AND CROMARTY.

Mainland.

73. KNOCKBAIN.—Vaccination very well attended to.

75. (1) LOCHBROOM.—Sickness in the parish and changes among the Medical Officers account for the unusually large number in Column 7. In this parish many people have to travel long distances to meet the Vaccinating Officer.

Insular.

86. (a) BARVAS.—The prevalence of Hooping-Cough in this district prevented children being vaccinated.

86. (b) CARLOWAY.—The large number in Column 2 is accounted for by the death of the late Medical Officer, his successor waiting for warmer weather before he commences to vaccinate the children.

6. INVERNESS.

Mainland.

95. DAVIOT AND DUNLIGHTY.—Vaccination well attended to. There is no Medical Officer resident in the parish.

99. (1) GLENGARRY.—Act works very well

here, considering the great distance some parents have to travel to meet the Doctor.

102. KINGUSSIE AND INSH.—The large number in Column 2 is accounted for by the prevalence of Influenza.

Insular.

111. (1) NORTH HARRIS.—Vaccination much behind owing to the prevalence of epidemics.

111. (2) SOUTH HARRIS.—Vaccination in arrear owing to the prevalence of Measles and Hooping-Cough.

114. (1) PORTREE.—The number of children unvaccinated this year is the smallest for ten years.

114. (2) RAASAY.—Vaccination in a very unsettled state.

118. (2) HOWMORE.—Prevalence of Hooping-Cough accounts for the large number in Column 2.

III. NORTH-EASTERN DIVISION.

8. ELGIN (OR MORAY).

131. DUFFUS.—Since the Vaccinator resided in the parish, the Vaccination Act has been well attended to.

9. BANFF.

152. ENZIE.—Vaccination interfered with by the prevalence of Influenza.

10. ABERDEEN.

183. CRATHIE AND BRAEMAR.—Vaccination very well attended to.

201. GLENMUCK.—Vaccination well attended to.

IV. EAST-MIDLAND DIVISION.

12. FORFAR.

238. FORFAR.—Owing to an epidemic of Measles, there was a considerable number of

postponement cases in the early parts of the year. The whole of the vaccinations are now complete.

14. FIFE.

451. NEWBURN.—Act well carried out.

V. WEST-MIDLAND DIVISION.

19. ARGYLL.

Mainland.

523. KILMORE AND KILBRIDE.—A severe epidemic of Measles which has prevailed for the last three months, has prevented many children being vaccinated.

Insular.

551. (2) COLL.—Owing to the population being so scattered, it is difficult to get parents to bring their children for vaccination.

VI. SOUTH-WESTERN DIVISION.

23. LANARK.

644. (8) MILTON (Glasgow).—Two parents were fined by the Sheriff, one for the fourth, the other for the first time for refusing to allow their children to be vaccinated in pursuance of

orders from the Parochial Board in terms of the Vaccination Act.

647. HAMILTON.—The parent of one of the children in this district had to be prosecuted and fined for refusing to allow his child to be vaccinated.

VII. SOUTH-EASTERN DIVISION.

26. HADDINGTON.

705. DIRLETON.—Vaccination Act carefully attended to.

VIII. SOUTHERN DIVISION.

31. DUMFRIES.

845. PENPONT.—During the last 24 years there have been in this parish only two cases in which the Vaccination Act has not been complied with—one the child of a tramp, in the case of the other, the parents had left the country.

32. KIRKCUDBRIGHT.

857. (a) BALMAGHIE.—Vaccination Act carefully attended to.

33. WIGTOWN.

893. NEW LUCE.—The Vaccination Act is working very well.

CONSTITUTION OF THE DISTRICTS DISTINGUISHED IN THE PRECEDING TABLES
BY AN ASTERISK (*).

No.	Districts.	Component Parts (Parishes).
14	Deerness	Part of St Andrews.
15	Eday and Pharay	Part of Stronsay and Eday.
22	North Ronaldshay	Part of Cross and Burness.
26	Sanday	Lady, and part of Cross and Burness.
376	Keils	Parts of Canisbay and Wick.
58	Applecross	(1) Part of Applecross; (2) Rest of Applecross and part of Gairloch.
596	Carnoch	Parts of Contin, Fodderty, and Urray.
716	Kinlochulchart	Parts of Contin, Fodderty, and Urray.
866	Carloway	Parts of Lochs and Uig.
87	Lochs	Parts of Lochs and Uig.
112	Kilmuir	(1) Part of Kilmuir; (2) Rest of Kilmuir and part of Smizort
185	Elgin	Elgin, and parts of New Spynie and St Andrews-Lhanbryde.
192	Enzie	Parts of Bellie and Rathven.
1656	Glenrinnies	Parts of Aberlour and Mortlach.
167	Seafeld	Parts of Cullen and Rathven.
2106	Kinninmonth	Parts of Crimond, Longside, Lonmay, Old Deer, and Strichen.
217	Logie Coldstone and Cromar	Logie Coldstone, and part of Glenmuick, Tullich, and Glengairn.
2226	Millbren	Parts of Fyvie and Monquhitter.
2276	New Pitsligo	Parts of Aburdour, New Deer, Strichen, and Tyrie.
2376	Savoch	Parts of Ellon, New Deer, Old Deer, and Tarves.
240	Strathdon	Strathdon, and part of Tarland.
2496	Ythan Wells	Parts of Auchterless and Forgue.
272	Arbroath	Arbroath, and part of St Vigeans.
282	Dundee	Dundee, and part of Liff, Benzie, and Invergowie.
294	Kettins	Kettins and part of Scone.
297	Kinnettles	Kinnettles and part of Caputh.
324	Aberfeldy	Parts of Dull, Fortingall, Kenmore, Logierait, and Weem
331	Balquhiddier	Balquhiddier, and part of Comrie.
344	Dowally	Part of Dunkeld and Dowally.
349	Dunkeld	Parts of Caputh and of Dunkeld and Dowally.
355a	Fortingall	(1) Parts of Fortingall and Weem; (2) Part of Fortingall.
356	Foss	Part of Dull.
360	Kenmore	Parts of Kenmore and Weem.
361	Killin	Parts of Kenmore, Killin, and Weem.
367	Kinloch-Rannoch	Parts of Fortingall and Logierait.
375	Logiealmond	Parts of Fowis-Wester, Little Dunkeld, Methven, Monzie, and Redgorton.
379	Meigle	Meigle, and part of Coupar-Angus. [Kinloch, and Rattray.
386b	Persie	Parts of Alyth, Bendochy, Blairgowrie, Caputh, Kirkmichael, Lethendy and
387	Perth	Perth, and parts of Kinnoull, Scone, and Tibbermore.
393b	Stanley	Parts of Auchtergaven, Kinclaven, and Redgorton.
394b	Strathfillan	Part of Killin.
394c	Tenandry	Parts of Blair-Athol, Dull, and Moulis.
402	Anstruther-Easter	Anstruther-Easter and part of Kilenrany.
417	Crail	Part of Crail and May Island.
423	Dunbog	Dunbog, and parts of Abdie and Flisk.
424	Dunfermline	Parts of Dunfermline and Inverkeithing.
425	Dunino	Dunino and part of Crail.
432	Inverkeithing	Parts of Inverkeithing and Dunfermline.
442	Kirkcaldy and Abbotshall	Kirkcaldy, Abbotshall, and part of Kinghorna.
481b	Grangemouth	Parts of Bothkennar, Falkirk, and Polmont.
490	Stirling	Stirling, and part of St Ninians.
493	Bonhill	Bonhill, and part of Dumbarton.
496	Dumbarton	Parts of Cardross and Dumbarton.
506	Ballachulish, etc.	Part of Kilmalie.
509	Cumlodden and Minard	Parts of Glassary and Glenaray.
513	Inveraray	Inveraray and part of Glenaray.
515	Kilbrandon and Kilchattan	Kilbrandon and Kilchattan, and part of Jura. [of Kilchrenan and Dalavich.
517	Kilchrenan	(1) Parts of Kilchrenan and Dalavich, and of Glenorchy and Inishail; (2) Rest
526	Lochgilphead	Parts of Glassary and South Knapdale.
529	Muckairn	Parts of Ardchattan and Muckairn, and of Glenorchy and Inishail.
535	Tarbert	Parts of Kilcalmonell and Kilberry, of Saddell and Skipness, and of South
536	Bowmore (or Kilarrow)	Part of Kilarrow and Kilmeny. [Knapdale.
542	Kilfinichen and Kilvickeon	Parts of Kilfinichen and Kilvickeon, and of Torosay.
543	Kilmeny	Part of Kilarrow and Kilmeny.
545	Kinlochspelve	Part of Torosay.
547	Portmahaven	Part of Kilchoman.
548	Salen	Parts of Kilninian and Kilmore, and of Torosay.
549	Tobermory	Part of Kilninian and Kilmore.
556	Lochranza	Parts of Kilbride and of Kilmory.
557	North Bute	North Bute, and part of Rothesay.

* The actual number of Districts is 1051—many Parishes and Burghs having been divided into two or more Districts for the purpose of Registration. Thus Edinburgh and Glasgow, to each of which only a single number is assigned in the Tables, consist of 5 and 14 Districts respectively. In forming the alphabetical arrangement the principle adopted has been to place compound names in the order in which they are pronounced.
